

LIPBAR LIPSTICK

Recommended by Karese Adediran

If you read my previous post on lip colors I love, (see it here), then you wouldn't be surprised at the fact that the first thing on my list is a lip brand! I have been wearing The Lip Bar for years now. They are a vegan and cruelty-free company that has been challenging the beauty standard since 2012, from their Detroit headquarters. If you see a color you like order it quickly, selling out is common for this company! www.thelipbar.com

EDEN BODYWORKS COCONUT SHEA

Recommended by April Kendall

I already loved their coconut shea hair line, but the skin care line took it up a notch! This skin care line keeps my body greatly moisturized and smelling great. With the winter months vastly approaching, this line can surely be added to your skin care regimen. edenbodyworks.com
