

## CLINIQUE STAY-MATTE OIL-FREE FOUNDATION

Recommended by Valerie Pierre

I have super oily skin and I have a hard time finding a foundation that will keep me from looking like I have a face full of Crisco after a few hours. Stay-matte is light, airy and stays put all day. It goes on like a thin layer of second skin and dries quickly. It only requires a single blot to my nose toward the end of the day. But most importantly my skin doesn't feel oily to the touch and I have also noticed a decrease in breakouts which is always a good thing. [www.clinique.com](http://www.clinique.com)

## IMAN COSMETICS SHEER FINISH BRONZING POWDER AFTERGLOW

Recommended by Valerie Pierre

Keep that summer sun-kissed glow year round with Iman's Sheer Bronzing Powder. You can use this with and without foundation. In the summer I use it on its own, and in the cooler months I'll use it after I apply my foundation. The tricolor palette is the perfect combination for any skin tone. Don't be fooled by the pic the colors are deeper than shown. It's hard to find in stores but its available online. It's worth it. [www.imancosmetics.com](http://www.imancosmetics.com)
