FROM.EVER.SINCE

Recommended by Karese Adediran

Since I've hit my 30's, my skin has been a top priority of mine. I like to use products that are all natural for my sensitive, eczema prone skin. I have come across From.Ever.Since, a skin care line that is revolutionizing the industry with their products that contain the powerful ingredient CBD. Yup that's right, Cannabis! The HYDRO cream is so hydrating, I slather it on at night before bed and I wake up with supple, soft skin in the am. A great pick for the skin care junkie in your life. www.fromeversince.com
